

2023 ORPS Sponsorship Options for Annual Conference

Partnership Opportunities

Oklahoma Recreation and Parks Society (ORPS) is comprised of dedicated professionals from various facets in the Park and Recreation field. The organization works in concert with providers and academics to provide the most up to date information for our profession to keep programs of all kinds on the leading edge of parks and recreation. Annually ORPS has a two to three day conference that allows the gathering of these various professionals to gather and share ideas about park and recreation. Vendors will be able to promote their products, knowledge, services and build relationships with the professionals who attend these events.

Conference

The ORPS Conference provides educational and networking opportunities for ORPS members and related professionals. Our annual conference provides an opportunity for vendors, professionals, and students to develop relationships.

How do you benefit?

ORPS events cannot be held without vendor assistance. Our conference coordinators attempt to meet the needs of our vendor sponsors through promotion of their products and services. Our partnership packages have been developed and reviewed to maximize vendor exposure to our professional membership. Within our varied levels of sponsorship packages we have varied opportunities for sponsorship. NO matter what level of sponsorship you chose ORPS will provide every opportunity to assist in developing relationships with professionals in a fun and relaxed setting. We will provide you with opportunity to strategically display your logo in high density locations and on event notifications and schedules that are provided to our membership.

Want to be involved?

We have limited the amount of sponsorship opportunities to reduce competition and give sponsors greater exposure to ORPS professionals. Please review the following sponsorship levels listed on the following pages and let us know how we can meet your needs. Thank you again for all your support!

IF you have more questions please do not hesitate to contact Jerel Cowan at ed@orps.us.
